Ethnicraft

FURNITURE

collection 2023

ethnicraft.com

We create the foundations of your home to inspire the stories of your life.

For more than 25 years, we have been creating timeless furniture and accessories manufactured from quality materials. True to our values, we have maintained our goal to produce good design, distinguished by authenticity, simplicity and quality, as well as creativity and innovation. We rely on our unique expertise to create singular designs ready to embellish your daily life durably. We create collections for every room or space: from the furniture that defines the purpose of an area to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the stories of their lives.

All of our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime to another.

ICONS YOU MIGHT COME ACROSS
IN OUR PRODUCT CATALOGUE

(O) OILED
The items marked with this icon are finished with a natural oil. Visit pages 259-261 for more information on how to take care of our oiled furniture.

(V) VARNISHED
The items marked with this icon are finished with varnish. Visit pages 259-261 for more information on how to take care of our varnished furniture.

(B) BRUSHED
The items marked with this icon are brushed. This finishing gives our furniture more depth. The rougher surface highlights the grain of the wood.

(C) CONTRACT GRADE
The items marked with this icon are EN and/or BIFMA certified.

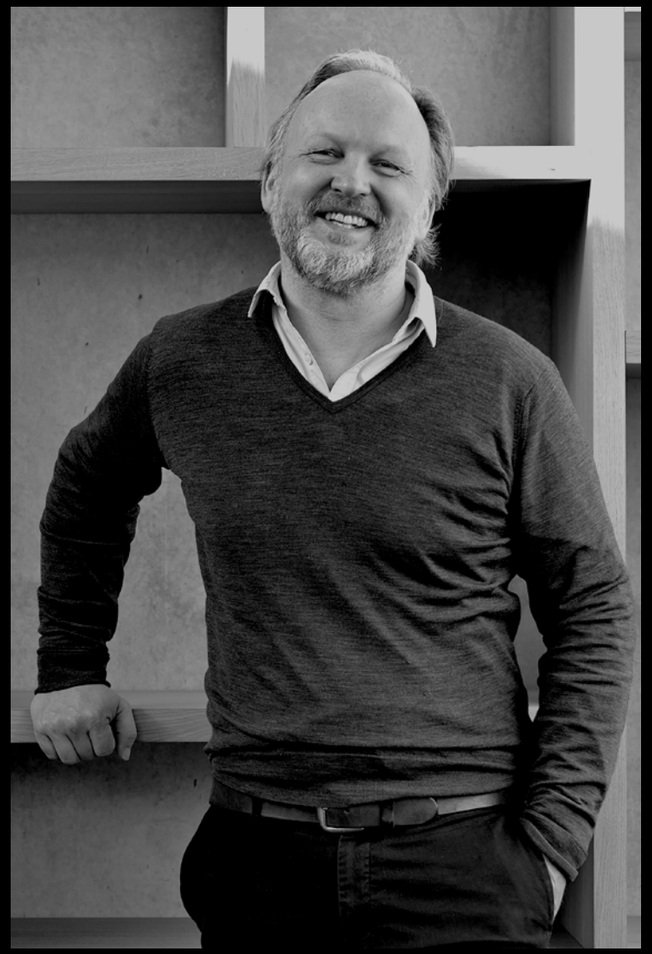

(N) NATURAL
The items marked with this icon come without any finishing or protective treatment applied to the surface. A natural finish enhances the inherent beauty of the material but can require more maintenance. Visit pages 259-261 for more information on how to take care of our natural wood furniture.

FSC® FOREST STEWARDSHIP COUNCIL®
The items marked with this icon carry the FSC® 100% label. Visit page 262-263 for more information on the organisation that promotes responsible management of the world's forests.

FSC www.fsc.org FSC® C002408 The mark of responsible forestry

Alain van Havre

For Alain van Havre, inspiration is everything. Deeply connected to his environment and passionate about natural materials, he has developed an exceptional expertise for woodworking. Over the years, he has created his own visual language centred around form, a translation best described in collections such as the Bok, Graphic, PI and Stairs. He believes that for someone to connect with a design, it is important to bring it closer to nature. Over the past 20 years, Alain has played a pivotal role in influencing the Ethnicraft designs we know and love today.

“I’m obsessed with the freedom of movement in general, which is why I strive to escape the static in my designs and add dynamism to compositions.”

Jacques Deneef

Jacques Deneef is an Antwerp-based designer with a fascination for basic materials such as glass, wood, leather, paper and wax. After entering the world of art via his talents in oil and acrylic painting, he now focuses his time giving used objects new leases of life, alongside design development in sectors such as jewellery, lighting, textile, furniture and decor. In offering objects a new existence, Jacques believes they are transformed into something new, they are made useful in some other way, ultimately resolving into their final destination: a work of art.

Nathan Yong

Inspired by observation of the visual environment, Nathan Yong challenges the existential questions of objects. Instead of superfluous details, he captures the poetry of products through a stripping process. Objects lend qualities that are informed by a lightness of restraints. Based in Singapore, Nathan runs a multidisciplinary design consultancy spanning fields such as graphic, industrial, interior and architectural design, along with strategic planning in product development, manufacturing process and branding.

"My studio allows me absolute freedom to create. I walk through the door, the world outside stops, and I am completely in my element."

Dawn Sweitzer

An overflow of creative energy and a profound interest in the world of craftsmanship is what jump-started Dawn Sweitzer's journey as an artist. Her works are expressions based on travel, enriching cultures, textures within the landscape, photography, food and fashion. There is no fixed formula to how designs are conceived — they blend ideas, they reference vintage with modern. Within her beautiful North Carolina studio, Dawn works, plays and discovers in a variety of media: paint, woven textile, mirror and glass, home accessories and decor.

tables

The dining table is a gathering place where meals are shared and memories are made, at the heart of the home.

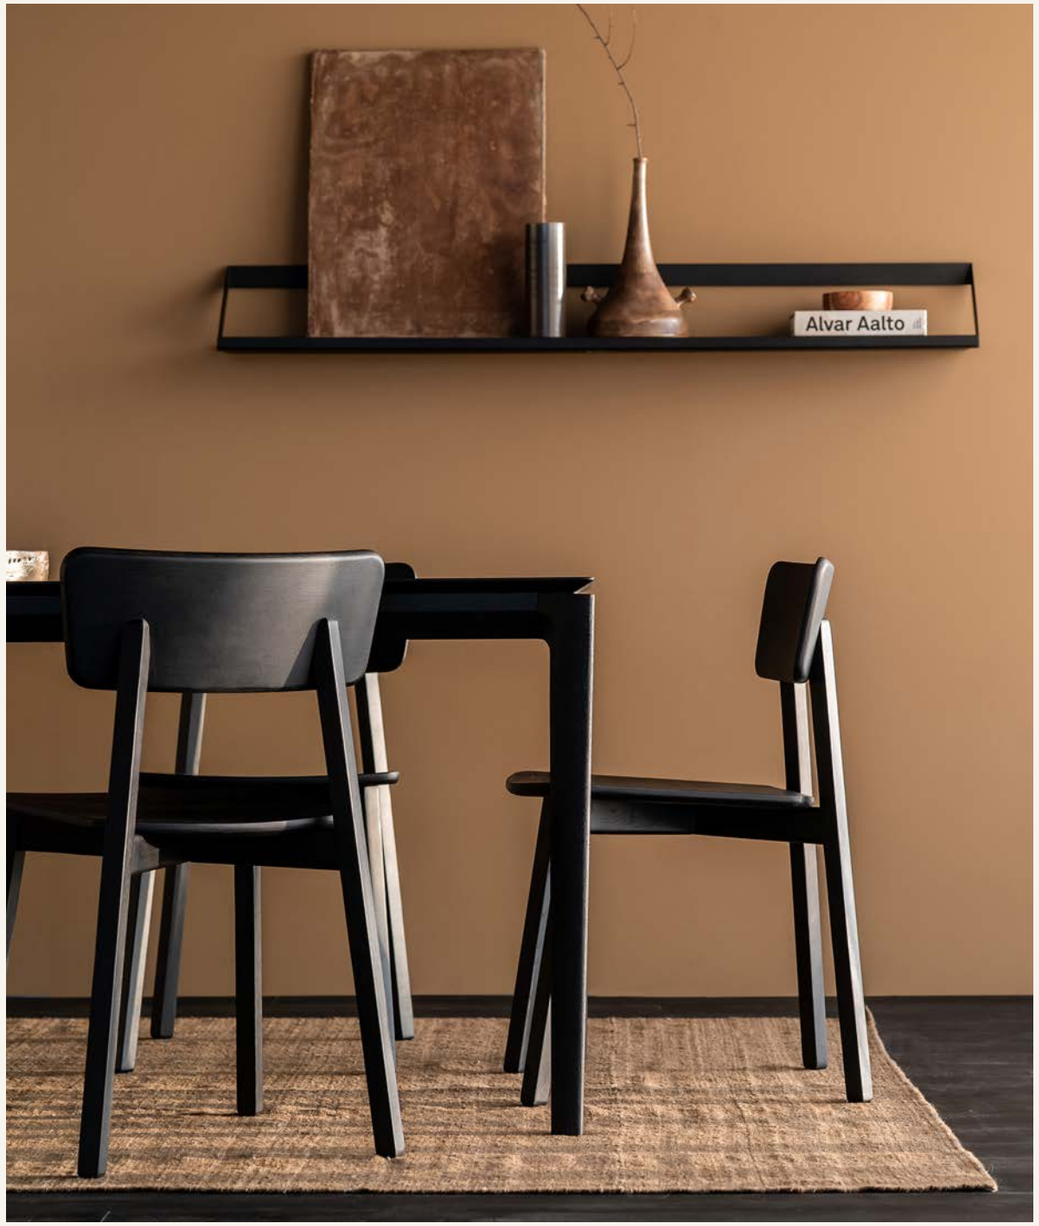

Alvar Aalto

storage

A home is made from more than just items, but from objects of significance that make it feel lived in and quintessentially yours.

**“Organic wooden forms bring us closer to nature.
Curves and more natural lines reflect our environment.
They are forms which are familiar to us.”**

- Alain van Havre, designer

how to take care of our products

about natural materials

The beauty of natural materials lies in its peculiarities and imperfections. That is what separates true beauty from the artificial. Variations in wood grain and colour, knots, medullary rays and other natural characteristics are inherent in solid wood. These are far from flaws, but an intricate part of its character. Natural stone can have minor pitting or surface fissures. We believe that these imperfections contribute to the charm of Ethnicraft products.

Wood, like any other natural and porous material, continues to absorb and release humidity throughout its life. Although Ethnicraft designs furniture that adapts well to the hydrometric conditions of its environment, some cracking or movement may occur. Please do not be alarmed; this is a normal response to the furniture's environment.

Due to the handcrafted nature of our products, each item will vary slightly. We consider this a sign of uniqueness and quality.

TIMELESS DESIGN
All of our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime to another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that age beautifully.

DEVOTION
We create collections for every room of the house, from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the stories of their lives.

CRAFTSMANSHIP
Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflect our design values.

how to take care of our products

General care & maintenance tips

- Recommended humidity in the room for interior products: between 40% and 60%.
- To prevent colour differences, do not place furniture or accessories in direct sunlight, and move objects placed on the furniture from time to time. Open extendable tables on a regular basis.
- Avoid exposure to extreme conditions: do not place furniture or accessories near heating sources or air-conditioned spaces.
- To prevent staining, we recommend that any spills are removed immediately.
- When cleaning the surface, always work in the direction of the wood grain.
- Use place mats and/or coasters to prevent hot pots and pans, or cold glasses and bottles, from damaging items.
- Do not drag the furniture along the floor; always lift the furniture when moving.
- Always ensure water and solutions used to clean the floor do not come into contact with the furniture's base, as it might leave permanent marks.
- Indoor products are not intended for outdoor use. An outdoor product will always indicate so in its name.
- Last but not least, we always recommend carefully reading the care instructions specific to your item.

For full care and maintenance information related to Ethnicraft products and materials, please link directly through to our website:

All woods, hard surfaces & materials

REGULAR CARE
For dusting, use a dry cloth. For cleaning, or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft, clean cloth to prevent spotting.

It is always recommended to protect any surfaces with coasters, mousepads, or placemats. Repetitive daily use or heat can damage the finish.

Always move objects such as flowerpots, vases, etc. from time to time. Ensure any excess water or dampness is wiped dry immediately to prevent marking the surface.

Upholsteries & soft furnishings

Do not wash unless clearly indicated on the label attached to the item. Machine or hand washing (even at a low temperature) may lighten the colour and shrink the fabric.

Pilling is the result of excess fibre on the fabric, or from external sources. This is not a defect but a characteristic of many textiles.

For our leather items, many of the hides used are left in their purest form. This means there is little or no surface treatment, allowing for the unique natural beauty of each hide to come through.

To keep upholsteries in optimal condition, we recommend:

- Removing pilling by using an antipilling machine.
- Avoiding placing item in direct sunlight.
- Dusting or removing crumbs by wiping down upholstery with a clean cloth or soft brush. Do not rub.
- Avoiding using a vacuum cleaner. If you do use one, select the lowest suction and use a soft upholstery attachment.
- Treating spills immediately. Blot up as much of the spill as possible with a clean, dry, white cloth. Do not rub.
- Treating stains by using a clean, slightly damp white cloth, blotting from the outer edge to the centre of the stain.
- Avoiding chemical products on your upholstery.
- Reviewing the care label or leaflet specific to your item.

Outdoor

Ethnicraft's Outdoor collection is designed to adapt well to a range of environmental conditions. The high density of teak wood means it is an excellent choice for outdoor use.

Our teak range comes without any finish or protective treatment. Over time, it is natural for untreated furniture to grey due to prolonged sun and rain exposure. This colour change is purely superficial and does not impact the strength or quality of the timber.

While no additional treatment is required on your outdoor teak product, you can choose to apply the following:

- Use a specialised teak cleaning product to remove any dirt buildup from items.
- To protect against stains and green deposits, you can use a teak protector. Ensure the timber is completely dry, with any dust removed, before applying. Allow 24 hours dry time before exposing to moisture.

OUTDOOR UPHOLSTERY & FABRICS
Ethnicraft Outdoor fabrics are water-repellent, UV resistant, hypoallergenic and maintenance-friendly.

Clean with clear water and a natural soap. Covers are machine washable up to 30°C/86°F.

All cushions are inserted with a long-lasting, quick-dry foam.

To keep your Ethnicraft Outdoor furniture in optimal condition, we suggest fitting our custom-made rain covers during seasons when it is not in use, or during periods of bad weather.

Our sustainability commitment

As a vertically integrated company, we know we are in a unique position to contribute to a sustainable shift in the industry.

From design to the sourcing of raw materials, packaging and testing, we pay great attention to environmental protection and consumer safety throughout the product-development process. As a company, we work to minimise waste and close the loop toward circularity. Together with our partners, we strive to do our humble share.

Just as society and the industry evolve, so do we. We know there is no finish line in this journey and continue our efforts to constantly improve our products and operations.

We believe that durability and sustainability start with choosing the right quality material, and wooden products are particularly suited for refurbishment.

DURABILITY BY DESIGN

We pay particular attention to the quality of our products, not only during the development stage, but throughout the entire life cycle. We believe that durability and sustainability start with choosing the right quality material, and wooden products are particularly suited for refurbishment.

Our team is always available to advise on how to care for products and thus extend their lifespan, as well as how to repair them. When developing new products, we consider repairability at the earliest design stage. Where possible, we provide spare parts to further extend the life of our products.

THE ORIGIN OF OUR WOOD

The ultimate noble and renewable material, all our wood is sourced from responsibly and carefully managed forests compliant with the EU Timber Regulations and the Forest Law Enforcement, Governance and Trade (FLEGT) Action Plan. In addition, our wood sourced from Indonesia is verified under the Indonesian Timber Legality Assurance System (SVLK).

Our teak collection includes products certified as FSC® which are clearly labelled in the catalogue. Finally, we carry the FSC® CoC (Chain of Custody) certification of our distribution centres.

FOCUS ON QUALITY

Producing furniture and accessories at the highest quality, strength and safety is extremely important to us. Our internal protocols are based on the standards set by ANSI (American National Standards Institute) and BIFMA (North American Business and Institutional Furniture Manufacturers Association).

Moreover, specific products within our collections are certified by independent external facilities in order to meet the European requirements for contract-grade use. Products also meet specific requirements based around ecological and health regulations such as toxic substance use and flammability.

WASTE REDUCTION AND CIRCULARITY

We want to remain as environmentally friendly as possible, working to reduce waste from the earliest design stage. With this principle, we design to reduce or reuse as much scrap wood as possible. Production waste such as leftover logs, wood and sawdust are reused for other purposes.

With full control over the (re)design, production, distribution, refurbishing and recycling processes, we are developing a vision for sustainability based on designing for circularity and lengthening product lifespans.
